

High-Traffic Aisle — Spill Response

Generated for Tesla GFNY EVS — 2025-10-02 23:01

Immediate Actions

- Stop pedestrians; place wet floor signs and cones.
- Identify spill type; don appropriate PPE.
- Contain and remove per SDS (absorb, neutralize if required).

Closeout

- Rinse/neutralize residue; dry floor fully.
- Remove signage last; verify slip-free before reopening traffic.
- Log incident in shift report; escalate if recurring.
