

Auto-Scrubber — Daily Care

Generated for Tesla GFNY EVS — 2025-10-02 23:01

Pre-Use

- Inspect squeegee, pads/brushes, cord/battery.
- Check solution/dump tanks; proper dilution per SDS.
- Verify wheels/casters and squeegee assembly.

Operation

- Overlap passes; slow enough for proper pickup.
- Edge and corner detail where machine can't reach.
- Watch for pedestrians; place wet floor signs.

Post-Use

- Empty/clean tanks; rinse filters; run clean water through system.
- Remove/rinse pads/brushes; hang hoses to dry.
- Plug in charger; inspect cord; report issues.
